

School on Wheels

Believe, Understand, Succeed (B.U.S.) Program

Dear Mentee,

The BUS Program is a mentoring program meant to ensure your success in high school and after high school. Your mentor will guide you through the high school graduation requirements and introduce you to the many options you have upon graduation. Graduating from high school is an important step in your life and having a plan to graduate will increase your chances for success.

The aim of the program is to provide you with specialized education/career services. Our goal is to strengthen your education, encourage you to earn a high school diploma, and motivate you to pursue careers that you never thought possible in order to achieve a productive and stable future. We will do this by offering:

- One-on-one mentoring and tutoring
- Guidance with reviewing school transcripts and graduation requirements
- Presentation of options after high school, such as, college, trade school, and AmeriCorps
- College/vocational school campus tours
- Access to college and career fairs
- Motivational speakers and videos
- Supplemental tools and resources

You will find valuable resources on our website—with sections ranging from descriptions of the number of options you have after high school to how to use an agenda.

Your mentor will review each section with you and he or she will answer any questions you may have about the importance of education and/or training after high school. Whether you choose to work full-time, enroll in a community college or apply for admission to a four year university, your mentor will ensure you are headed for success.

Sincerely,

The BUS Team

“Believe in your dreams and they may come true; believe in yourself and they will come true.”
