

Making Connections Summer Program

Did you know:

Children can easily fall behind in the summer. Over time, this cumulative loss can set them back a grade or more.

Here's our solution:

School on Wheels created an 8-week reading program to fill in the gaps of students' knowledge of English language arts, including critical thinking, reading and reading comprehension, grammar and writing skills.

**Join School on Wheels
this summer as we READ and enter
to win a prize!**

- Select a book & escape while reading it
- Strengthen your reading skills
- Learn new vocabulary
- Engage in creative writing
- Complete a fun project

We ask ALL STUDENTS to participate with their tutors in our FREE summer program.
